LANDIS THROWS TWO PLAYERS ON TABOO LIST

(By United Press)
NEW YORK, Oct. 2.—Wistful boyish Jimmy O'Connell, Giant outfielder who was thrown out of organized baseball by Commissioner Landis for offering to bribe a player of the Philadelphia National League club showed up at the club house at the Polo grounds this morning and declared that he had "been made the goat in this business." O'Connell said he had received no notice that he and Coach Dolan had been placed on the ineligible list. O'Connell said he approached player Sand and offered him \$500 if he "wouldn't bear down" in the Saturday game, which the Giants needed to clinch the pennant. He declared that Sand said "nothing doing." In reply offered Sand \$500. O'Connell said Dolan told him "all team on on deal." Other players of the Giants club were given clean bill of health by Landis.

(By United Press)
NEW YORK, Oct. 2.—Baseball critics were thrown in a frenzy of excitement here today by announcement that Jimmy O'Connell, outfielder and "Cozy" Dolan, coach of the Giants have been placed on the ineligible list for attempting to bribe Shortstop Heinie Sand of the Philadelphia National League club to throw a game last Saturday.

The game was the one in which the Giants clinched the National League championship. Announcement of the action was made by Judge Landis, ex-officio organized baseball. Sand was offered \$500 to throw the game and refused, reporting the case to his superiors.

Baseball critics here admitted the scandal will cause the Giants to go into the World's Series against the Washington Senators, champions of the American League, under a considerable handicap.

Landis' action followed a two-day investigation ending with O'Connell confessing, which charged that Dolan instigated the plan and sought to implicate George Kelly, first baseman Frank Frisch, captain of the Giants and Ross Young, outfielder. These players, however, were cleared.

The Commissioner issued the following statement:

"Player O'Connell and Coach Dolan of the New York National League Baseball Club have today been placed on the ineligible list. This action was taken by the Commissioner on evidence furnished by the confession of O'Connell and the testimony of Dolan.

"It appears that on Saturday Sept. 27, O'Connell offered Player Sand of the Philadelphia Nationals \$500 to throw the ball game. Sand refused promptly and reported to Manager Fletcher. This was followed by the Commissioner's investigation in conference with the officials of the New York Club which resulted in O'Connell's confession, which placed the responsibility of instigating the scheme on Dolan, whose testimony on his own behalf was of such a character as to be unacceptable.

"O'Connell's confession sought to implicate players Frisch, Young and Kelly of the New York Club, but their testimony in the Commissioner's opinion was a clear refutation of the charge, which, standing alone, was exceedingly unreasonable.

"The Commissioner desires to express his heartfelt commendation of player Sand."

Coming on the eve of the World Series the loss of O'Connell may prove a severe blow to the Giants if Captain Frisch, out of the game for two weeks on account of an injured finger, is unable to play.

Under such conditions Kelly probably will play second base. Terry taking first and O'Connell would have been the logical choice for center-field. It is probable if Frisch plays, that Kelly will go to center.

BUTTE ATTACKS THE RECORD OF FERGUSON IN OPENER

(By United Press)
SHERMAN, Texas, Oct. 2.—Dr. George C. Butte, republican nominee for governor, opened his campaign against Mrs. Miriam A. Ferguson, democratic nominee, here last night with an attack upon the record of former governor James E. Ferguson.

Declaring Ferguson "would be governor by proxy" in event of Mrs. Ferguson's election, Butte called upon democratic voters to "rise and wrest the affairs of government from the hands that are not worthy of them."

Butte attacked the clemency record of the former governor and refused to bring in the Klan issue, declaring its inclusion in the campaign was "used as a smoke screen."

The republican nominee declared the question of the eligibility of the woman nominee was a matter for the court's to decide, adding that he was willing to let the case be "decided at the polls in November."

Butte is scheduled to address a "Butte for Governor" women's club at Dallas this afternoon.

LEAGUE FAVORS DISARMAMENT PROTOCOL

(By United Press)
GENEVA, Oct. 2.—The Assembly of the League of Nations—with 47 nations voting unanimously adopted the disarmament protocol today.

Spokesmen for all the leading powers have pledged support of the project when it comes up for ratification by governments and parliaments.

Many hailed the protocol as bringing an end to war.

By adopting the protocol of arbitration, security and disarmament, the assembly summoned a reduction of armaments conference to meet at Geneva next June. The United States will be invited to send representatives.

GIRL ESCAPES IN CHAINS FROM AN EASTERN SCHOOL

(By United Press)
SYRACUSE, N. Y., Oct. 2.—With the ankles shackled with steel bands and chained together, Madeline Stanton, 19, of Astoria, L. I., hobbled into police headquarters here during the night and told of her escape from the George Junior Republic institution at Freeville. The girl said she had been mistreated prior to her escape Wednesday night. She was attending the preparatory college and was penalized when she refused to do housework, she said. The authorities are investigating.

(By United Press)
CHICAGO, Oct. 2.—Senator Smith Brookhart made it plain here that he had no intention of bolting the republican party as a result of the storm raised by his demand for the resignation of Charles Daves from the republican ticket. "All I will say is that I gave him good advice," he declared.

Four Assignments Of Error Cited In Dickson's Appeal

(By United Press)
AUSTIN, Texas, Oct. 2.—Charles Dickson of San Antonio filed four assignments of error in connection with the district court decision here holding Mrs. Miriam Ferguson eligible for governor. The filing represents definite move for appeal from the recent ruling. Dickson contends that the decision is in error.

NEW LIFE NOTED IN BIG SERIES AS SENATORS IN CONTEST

(By HENRY L. FARRELL)
(United Press Staff Correspondent)

WASHINGTON, Oct. 2.—After a lapse of three years the World's Series again has become something more than a bunch of ball games.

Washington fondling a pennant with all the joy and fervor of a first born, has put a life into the series that has been lacking since New York turned the baseball classic into a drab and colorless city series.

Cincinnati made a great event of the series when the Reds won their first National League pennant in 1919 and Cleveland declared an extended holiday when the Indians won their first American League pennant in 1920.

But Cincinnati and Cleveland didn't have a head of the Nation to lead the cheering for their victors. They didn't have the occasion to kick over the dignity and the position that Washington had to show the more convincingly how crazy they were over baseball.

Even the bit of scandal that cropped up when Commissioner Landis declared two members of the Giant squad ineligible for a shady transaction, failed to take any of the joy out of Washington's life.

"The Giants did that. Our boys wouldn't do it. They had the class to go out and win without wanting anyone to lay down for them," was the general comment around the city today.

The announcement that Landis had barred Jimmy O'Connell, the former \$75,000 beauty from the Pacific Coast and Cozy Bolan McGray's second lieutenant and the chief keyhole watcher of the club, for offering Heinie Sand, the Philadelphia shortstop \$500 to throw a game was not regarded as a great sensation here. It was looked upon as being more foolish than crooked because the Giants had the pennant as good as cinched and the Phillies certainly could not have been regarded as such a menace.

The situation recalled the 1919 White Sox scandal when it developed other clubs in a pennant fight had occasionally regarded a pitcher for beating their rivals. There was nothing brought out at the time, however, that indicated any efforts had been made by a pennant contending team to get another club to throw a game. It was said in 1919 that one of the Detroit pitchers had been offered money to win a game but not to throw it.

Unless other Giants are implicated and Landis has indicated that so far he has found no evidence of other complicity, the loss of O'Connell and Dolan will not reduce the strength of the Giants as O'Connell is not a regular player and Dolan will not be vital loss on the coaching lines. O'Connell got his name from the price paid for him and not for anything he has ever done with the Giants.

The Washington club worked out this morning at the ball park under their young manager Buck Harris. They went through a stiff three hour batting and fielding drill and in the manner of a boxer they will have only a "breather" tomorrow as the final workout.

NO MORE CASES NOTED DURING THE PAST 6 DAYS

(By United Press)
HOUSTON, Texas, Oct. 2.—The hoof and mouth disease outbreak in this section is apparently under control. No new outbreaks reported in six days, officials indicate and none anticipated. Airplanes are now prohibited from landing within the restricted area as a precautionary measure against a spread of the disease.

ONE PERFECT AVERAGE.

(By United Press)

Was there a perfect batsman this season?

There was. Nick Altrock, clown coach of the Washington Senators batted for 1000. He was at the bat once, hit a triple and scored a run for a perfect average. He did it all in the final game between Washington and Boston.

The ladies of the Missionary Society of the Methodist church at Shiloh will hold an ice cream supper Friday night, to which they invite their Mexia friends and the public generally.

BAPTISTS HOLD RELIGIOUS RALLY

The Baptist Missionary Unions are holding an all-day rally at the Baptist church and quite a number of people have gathered for the excellent and enthusiastic meetings.

This evening a pageant, directed by Mrs. J. M. Tidwell and Mrs. Paul Harper will be presented by the young people at the church. The aim of the pageant will be to portray the influence of the young people's religious activities.

Following the pageant Mrs. W. E. Britton of Ennis will lecture. Her talk will probably deal with the work of the young people.

Greatest Aerial Meet Is Now On

(By United Press)
WILBUR WRIGHT FIELD, Dayton, Ohio, Oct. 2.—Clear skies canopied this big flying field today for the opening of the international air races.

Soaring into the sky over the same historical ground used by the Wright Brothers for their early experiments with the airplane what promised to be the greatest aerial meet in history got under way at 10 a. m.

Thirteen pilots were entered in the first race of the three-day meet, the National cash register trophy, a 90-mile grind, six times around a closed course of fifteen miles. Besides the trophy \$3,000 in Liberty bonds were to be distributed among the winners. Only commercial planes of low horse power are entered.

The Central Labor Union of Dayton trophy, second event on the morning program calls for trip of eight times around the 15-mile course. Sixteen pilots of two, three and four-passenger commercial planes are entered.

The third and last event on today's card is the Liberty engine builders trophy 180 miles over a 15-mile course. Eleven standard De Havilland planes are entered.

Racing Not To Be Barred At Dallas During State Fair

DALLAS, Tex., Oct. 2.—Ten days of intensive effort at the State Fair of Texas opened on Monday, in preparation for the formal start of the thirty-eight annual State Fair, Oct. 11 next. Both the new agricultural hall and the new Spanish Village in the main exhibit building, are ready for exhibits.

The special "tent theater" which will house this year's big musical show, is up, the flooring is laid and the stage is ready, including special lighting effects. For the 1925 State Fair the new State Fair auditorium will take care of the musical production.

Special electric "floods" have also been placed in the athletic stadium, in readiness for the All-Collegiate Circus on the night of Saturday, Oct. 18. Incidentally the stadium field is in the pink of perfect condition for the six big football games scheduled during the Fair dates.

All Texas railroads have joined in a round-trip rate of three fourths the one-way fare from all points in Texas, good on trains arriving in Dallas on the mornings of Saturday, Oct. 11, Saturday, Oct. 18 and Saturday, Oct. 25. Travellers can remain in Dallas until the following Sunday nights.

The full thirteen day racing program will be carried out despite the closing of the livestock show under a ruling of the state livestock sanitary board. More than 200 fine horses are enroute or unloading, following telegrams to their owners that the cattle quarantine against South Texas will not weigh against racing stock. No department of the State Fair, save the live stock and poultry divisions, will be in the least affected by the quarantine order.

LONDON PAPERS REPORT ANTS' PITCHED BATTLE

(By International News Service)
LONDON, Oct. 2.—Idealists will probably be shocked to learn that the war fever still clutches modern London.

Great excitement has been caused by a war between rival colonies of ants at the Regent's Park Zoo. Newspapers have carried daily dispatches from the front, written in the test war style. Crowds have gathered to see the battle progressing day by day, and the picture papers have made magnificent photographs of the daily engagement.

The newspapers have announced that the authorities prepared a white-sand battlefield, with concentrated lights to aid the war between the two armies of ants.

The publicity given to this "war" has not been without protest, and some newspapers have printed violent criticism from ex-soldiers against such methods of making "an English holiday."

New Route To State Fair.

The new brick highway from Mineral Wells to the Parker County line has been completed, giving a surfaced highway all the way from Mineral Wells to Dallas by way of Weatherford. This means one more good motor route open in time for the State Fair of Texas, Dallas, Oct. 11-26.

She Planned to Murder Her Husband; Prominent Woman Confesses Gruesome Details

How she deliberately planned the murder of her husband has just been revealed in a confession by Edwinia Levin MacDonald, of New York City. Goaded by the ignominy of having to live in the home and use the servants and silver of a former wife, she set about to lay careful plans to put her husband out of the way.

Mrs. MacDonald went so far as to have a farewell party attended by two hundred, because after the deed she knew she would be taken into immediate custody. Increasingly obsessed with the gruesome details as the fatal night approached, she dreamed she had committed the act and overcome with terror confessed all to her husband.

Asking a motive for this near tragedy she describes in an article in Hearst's International for October the developments leading up to the plot.

"Marrying a divorced man," she says, "I might have been expected to foresee my situation; but foresight is based on foreknowledge. And youth has only its dreams upon which to base its expectations. In one swift, blinding shock I had come upon the truth. All this beauty of detail was the handiwork of the creation, so to speak, of another woman. Bought for her. Planned and arranged by and for her, reflecting her taste, her individuality.

"Even her servants had been handed down to me. They had seen another woman sit where I now sat; they had witnessed his caresses bestowed upon her, and would, with sighs and wailings of the head, watch him repeat himself with me."

"A second-hand house, second-hand furniture, second-hand servants—a second-hand husband. Even this first dinner alone with his bride was a reproduction, for him, of that day ten years ago."

"All beauty went out of my house in that hour. Perhaps some what of my love for my husband I was aware of a passionate resentment toward him and secret rebellion."

"What thoughts fell one upon

another, what fancies assailed me as, together, we later entered that all-lavender room, must be apparent. In the mirror which now reflected my face, he had seen her face reflected for nine years. On that mahogany bench she had sat to take down her hair night after night. This is the confession of the sixteen year old bride told in all its reality until the climax is reached.

"Humiliation and bitterness walked with me constantly. I was in a dungeon from which my husband's death alone could set me free. He was responsible for my incarceration. He was responsible for my multiplied helplessness. Thus the desire for his death was born."

SALT LAKE CITY BEAUTIFUL MONUMENT TO THE PIONEERS WHO BRAVED DESERT AND MADE BARREN WASTES PROSPEROUS

By FRED S. KARNER.

After leaving Yellowstone our route led us South thru Pocatello, Idaho on into Salt Lake City, Utah. The roads of all these western states make a Texan wish that the progressive spirit and vision of what they mean to a people and a state would dawn on those in power and the leaders of our great Empire commonwealth. The roads are all well improved thoroughfares and except for a detour at some one point they are continuous well built highways leading thru and from one state into the other. This has been accomplished by cooperation with the Federal authorities and with Federal aid and cannot be accomplished any other way.

No political obstacles or would be politicians with injunctions as their sole weapon to influence the ignorant voter are allowed in the path of this vast empire. Men of vision and with no selfish office-seeking aspirations are riding the wind of progress. They are leaders and love their native states. The farmers are all prosperous for they bring their produce over these good roads to a waiting market and their children ride to school every scholastic day in a bus especially built and maintained for their use. No one is injured by taxes—in fact I never heard the word mentioned on the entire trip. The farmers have cash money every day in the year for the one reason that when it is bad weather and he can't work on the farm he loads up with chickens, eggs, fruit and produce and returns with a well filled purse.

These conditions have turned a barren desert waste into a land of promise filled with milk and honey.

On into Salt Lake amid towering mountains and fertile valleys made rich and productive thru irrigation. Let me give you a wee bit of history that you have perhaps forgotten on account of this section being more or less remote—as our busy lives are wont to exclude those localities with whom we are not thrown in constant touch. There is one man, one great dominant motive in the soul sublime that we fortunate Americans pass by unnoticed and no man or group of men have accomplished more than this man and his great compelling incentive—I refer to the pioneer. You and I and all are enjoying today the luxuries of a well ordered life—Why? Merely for the reason that some big soul, unafraid, went out in the wilderness on the plains and thru all manner of perils and blazed the way.

I often stand and look with great admiration at the monuments and statues erected to the soldier who has given his life on the field of battle. But how many have been raised toward the blue dome above for the heroes that marched not with bugle call or the fan-flare of trumpet and the spine-thrilling shouts of the populace—but he who trekked the uncharted course thru pathless forest and unmarked plain and desert. He who was beset on all sides with the howl of the hungry beast and the grim visage of famine. This dauntless soul that peered far into an unknown land, counted not his own gain but the reaching to civilization of his Master's domain.

This thought strikes you constantly all thru this Western country and the kindred thought of our own Texas. It was here that the forebear fought man and beast that you and I might live and be happy.

Go this story if no other. This section was settled and made prosperous by a band of men and women who back in 1810 with St. Louis as the outpost of west and of civilization leaving all behind, putting

all their earthly belongings on push carts and faith in the God above turned their faces to the west and their souls to a sacrificial test. There lay between them and their destination—that they knew not where—a vast domain of plain, wilderness and mountains waste that no man had ventured near.

There were several thousand that left on this "tour of courage." Just one hundred and forty seven lived to reach what is now known as Salt Lake. Several of the push carts are today on exhibition there a silent reminder of indomitable will and faith that passeth the understanding of man. Many died on the way from exhaustion and with ill that beset such efforts and risks. The Leader that carried the torch of hope was none other than Brigham Young.

I have no argument with any man as to his religion. There is much that is good in all. Forget for a while that Brigham Young was what we term a Mormon and consider his efforts and his results.

Just here allow me to state that the real name of this faith is "Church of Christ of Latter Day Saints." The name Mormon is a nickname. What I am stressing is the human side of this band of pioneers and this leader. It is said when he reached the valley in which today Salt Lake City flourishes, he stated "It is here we will build the Tabernacle." It was a valley so closely resembling a desert that the two are synonymous. He and his weary band—wary only in their physical attainments—started the reclaiming of the desert. They had brought their seed for the crops and these they planted and were made to sprout and grow by the first irrigation method that was ever tried in the Americas. History accords Brigham Young this honor.

Just as their first crop was beginning to bear fruit there swept down upon this band of workers hordes of black locust. They began to fight

Establishes New Speed Record in Flying

LT. DAVID RITTENHOUSE

Beating his own world's record by more than fifty miles an hour, Lieutenant David Rittenhouse, U. S. N., flying a Navy Curtiss seaplane racer over Long Island Sound, attained a speed of 242 1/4 miles an hour. He flew a plane intended to defend the Schneider cup, but England and Italy withdrew their entries from the race, which was to have been flown at Baltimore, Md.

them with all available methods at their command. They would kill them and then burn these insects after being swept into huge piles. And yet they came. The situation was most serious for it meant starvation. It was too far to send back for seed. There was no such thing as a telephone—mail or telegraph—there was no mode of communication with the rest of the world. Their seed had all been planted and even though they had other seed they would all starve before another crop could be made even before freshly planted seed could germinate. Their plight was pitiful and almost hopeless. They fought both night and day and were

on the verge of giving up the fight thru exhaustion when one day it was suggested that they pray. This they did with all the fervor of Christian martyrs. Almost immediately as if in direct answer to their prayers there flew in from the sea vast flocks of sea gulls. These eagles of the sea started at once on the destruction of the pest that was taking the food from the toilers and in a short while had destroyed them.

This is history and is not some fantastic tale of religious propagation. In the grounds of the tabernacle there stands today a huge monument erected to the Sea Gull, commemorating the birds' service to humanity and this band of pioneers.

Brigham Young from then on founded his church and religion and thru his efforts irrigation was the sustaining life of this section. Since then it is a matter of history how the entire west and the desert places have been made most productive and to yield food and supplies beyond the dream of avarice. There would today be no California—no boundless orchards of fruit and great cities with thriving populations were it not for irrigation in what we call the Golden West.

Many of the News' readers have seen the Mormon Tabernacle—the greatest building of its kind in the world and in which is one of the wonder pipe organs of all times. Also in these grounds is located the Temple. No Mormon is allowed in the Temple only that he lives in every way and manner as befits the perfect christian as is demanded in the tenets of this religion. We are so wont to cast aspersions and point a critical finger at doctrines and religion other than that of our own.

The writer asked many questions of a Mormon minister while in Salt Lake—not thru curiosity but in an effort to learn of their teachings and found many commendable regulations and demands in their code of ethics.

Total abstinence with Mormons includes not only intoxicating beverages but such stimulants as tea and coffee and no tobacco. On casual inquiries around the city I also found that the word of a Mormon is his

bond. Polygamy was abandoned thirty-two years ago. The true historian or recorder of events hands down what he sees and hears unvarnished with or by personal like and dislike and I hand you these facts as truths of a people and a religion we know every little of in this section. Salt Lake City with its wide avenues and stately trees attest the spirit of progress and cleanliness.

One thought takes possession of you as you view this western city reclaimed from the desert and that is that all of this could not have been without the beneficent approval of a Supreme Deity. For the almost unbelievable has been brought to pass.

I refer to the success of this band of one hundred and forty-seven pioneers that faced untold hardships, that braved the elements allied with the danger of wild animals and starvation ever present and yet today a giant city in all the grandeur and splendor of modern enlightenment raises its gilded spires a living monument to what we call man's restless soul. The soul of the PIONEER.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.—(Adv.)

Entered as second-class matter, February 25, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia. I WILL"

Planning for a Better Mexia.

With so many new matters coming up, outside of the routine business of the City Commission, a wise step at this time would be the appointment by the city commission of a city planning committee, composed of about seven members, men and women, with the Mayor and City Secretary as Ex-officio members. This committee then could go into such matters as the proper care of city parks, beautification and sanitary proposals, adequate fire protection, street lighting problems, etc. In cities of 10,000 and above the plan has been tried with great results for good. The committee serves gratis, represents every section and interest of the city, is sanctioned by the Chamber of Commerce and other civic clubs with whom it works.

The plan is the compass and the commission is the pilot. In 22 states of the Union, this department in municipal administration is recognized by statutes.

Just as there is no standard city plan, there is no standard city plan committee. In Massachusetts, the planning boards are mandatory in cities of 10,000 and vary in number from five upward, made up of city officials and citizens, the terms expiring in 1925 to provide continuity of service. Seven members have been found very desirable, as then all influential citizen groups may be represented.

In the instance of our city, the committee naturally should have only advisory powers, since their work would involve existing municipal departments and interests.

Such a committee would be in keeping with the reputation of Mexia, known for and near as "The City That Vision Is Building." The committee should, therefore, have eyes to look ahead.

For example, suppose the city planning committee should investigate currently the situation in Mexia and decide that the fire department should have additional equipment, and an appropriation should be made out of the annual municipal budget to finance the upkeep and improvement of Hughes Park, the committee's duty then would be to interpret the plan for the officials and citizenship and wherever it is necessary or desirable for the voters to pass upon a project or proposition, the voice of the community and the committee submitting the subject matter would soon come to be accepted as the best judgment and wisest counsel offered.

AN OBJECT LESSON

The object lesson our people have had in watching a man like Owen D. Young work out the European reparations treaty in the capacity of a private citizen has helped crystallize the American mind in favor of more business and less politics in government affairs.

Comment on the work done by Mr. Young, President Lowell of Harvard said:

"Owen D. Young, a master builder, through a wilderness, on a highway on which the nations may travel and find the road to justice and peace."

Citizens can talk about plans to help the farmers, but a citizen has to men in working out the Dawes plan and securing its adoption. None done now to furnish markets for the farmer's produce and stabilize agricultural conditions for America and the world than has ever been done before in the world's history.

What's business, not politics.

"I CHALLENGE YOU"

Here Patterson, you with the jewel, I'd like to see you up a winding river.

At the golf links here at the country club,

I bet you can beat me or I am a fool.

You're brave (four times) my size and you don't go to school.

The little but loud when it comes to golf rules.

I challenge you to a match with me.

When a wonderful, terrible match, I'd love to be.

You name the day and the play and the way.

I'll wait or I'll be with you in the name and stay.

Bring your golf sticks, your launchers and snickers.

I'm to the game now and there by contract.

Just fifteen years old—but I believe I can beat.

A bet that if pushing a cart up the street.

With nothing in it but a voter for me.

Got lamb chops—beat you? oh! pshaw.

Yours at the Links,

John Cook.

El Paso Citizens Forced Eat Chicken
(By United Press)
EL PASO, Oct. 2.—City Sanitary Inspectors Crowson and Rule recently presented South El Paso tenement dwellers with a week of royal feasting—that is, an edict which forced them to eat.
Inspections of 178 tenement rooms provoked the feasts. In every house where they found chickens chained to a bedstead or otherwise detained in sleeping rooms with the rest of the family, they ordered the chickens out.
Fearing losses if they chained their fowls in community yards, the owners thought a feast the easiest way out of the situation. Even turkeys figured in the week of feasting, inspectors say.

As Gentle as an Ocean Breeze!

You can't imagine how pleasant this new mild calomel is to take. Each little tablet is sugar-coated and free from medicine-like repulsiveness. One or two at bed time makes you feel "top hole" as the Britishers say. It cannot salivate. Take it and eat anything you like. It is so mild and gentle you will hardly know that you have taken medicine. Nasty salts or other "follow-ups" not necessary. It does all any calomel can do—but it does it without drastic effects. Sold by all good drug stores. Prepared by the Peppinized Calomel Co., Atlanta, Georgia.

Took a Friend's Advice
Houston, Texas.—"When I was comparatively a young woman I became afflicted with woman's trouble and got so I could hardly walk. I had a delicacy in submitting my case to the doctors. Finally a friend advised me to try Dr. Pierce's Favorite Prescription. I did so, and before I had taken three bottles I was all right. Later on in life I became afflicted with a kind of poison in my blood; for this I took the 'Golden Medical Discovery' and gradually my blood became pure. I never again had anything like either of these afflictions."—Mrs. D. M. Wilson, 1521 Fulton St. All dealers.

A. F. of L. Gavel From Historic Freedom Elm

(By United Press)

NACOGDOCHES, Texas, Oct. 2.—When Samuel Gompers gavelled the annual convention of the American Federation of Labor into order at El Paso, Texas, on November 17, he will use a gavel made in Texas, from Texas wood, by a Texas man.

R. M. Ware of Terrell, Texas, has made plans to insure the above combination. Ware was given the contract for construction of the gavel with the stipulation that it shall be made from some piece of timber with historic associations.

During about, Ware remembered the location of an ancient elm tree near here under which he had been told that Sam Houston, Texas leader, held councils before the birth of the Texas Republic. Beneath the veteran elm it was related, the first presidential sermon was delivered when this section was largely populated with Spanish.

Ware secured two blocks from the ancient elm, which was blasted by lightning twenty years ago and which had been preserved by Robert Lindley, secretary of the chamber of commerce here, in anticipation of a demand for relics of the historic tree.

Queen Mary Sets The Knitted Vogue!

ONE of the shortest roads to chic now-a-days is by way of knitted outerwear. The smartest sets have taken it unto their hearts and into their wardrobes—even royalty is not immune to its allure. Its latest sponsor of note is Queen Mary, who has selected a variety of knitted costumes for her stay this fall at Balmoral Castle in Scotland.

The royal guidance of the mode, in combination with the brilliance and charm of the new knitted presentations, will, without doubt, be of utmost significance to milady in assembling her fall and winter wardrobe.

Knitted frocks and sweaters of soft brushed wools are almost necessities for cold weather comfort—but the newest knitted style note is to be found in the three-quarter and top coat offerings. Strikingly novel is a full length coat cut from a knitted fabric developed in an all-over silver and steel grey oblong pattern. Its luxurious collar and cuffs which simulate fur are in reality made of shenored or "bobbed" wool.

This Prescription For Kidneys

No Drugs—Just Herbs and Herbs!
6 OUNCE BOTTLE, 75c.

Years ago Dr. Carey said, "When backache comes get after your kidneys—and don't waste any time!" Right at the start, go to your drugist and ask for Dr. Carey's Marshroot Prescription No. 777; take it as directed until backache ceases, and your eyes are clear and bright!

For more than 40 years Dr. Carey specialized in diseases of the kidney and bladder, and when, in the height of his remarkably busy life, he decided to prepare his most effective kidney and bladder prescription through the better druggists he hurried thousands who could not afford to go to him for treatment.

Thousands of unobtrusive people have known ailments and never knew it until too late. High colored urine, no sleep in the night, and aching joints tell the story. If you even suspect—start today with Dr. Carey's Marshroot Prescription No. 777. It will drive the poison from your kidneys and your druggist knows all about it. Arderson & Horn dispense lots of it. It comes both in liquid and tablet form. It will help you as it has a host of others. If it should not, if you aren't cured in one week's time that you be—it is money gladly returned—and only 75c. "A Loaf of Bread, Electric Toast and Thou" Modern Omar's Perfect Breakfast

Breakfast appears to be the ideal breakfast, toast was specified as an essential by over 60% of those queried. This preference is recognized by scientific bakers and one of the things for which bread is tested is its toasting qualities. According to Dr. Charles Hoffman, chief chemist of the Ward Baking Company, the large quantities of rich ingredients which enter into a loaf of bread determine the golden brown color of perfect toast. The composition and mellowness of the loaf enter into the scientific leavening of the mixture give the peculiar "short" taste which we enjoy in good toast.

MOTHERS AT STATE FAIR OCTOBER IS THIS YEAR

Oct. 18 has been designated as Texas Congress of Mothers' Day at the State Fair of Texas this year, at the request of Mrs. Ella Carothers Porter, founder of the organization. Mrs. S. M. N. Morris is president of the Congress and Mrs. Stephen Chamness, also of Austin, executive secretary. The Congress is greatly interested in child welfare, and at the 1924 State Fair will take an active part in the "Fitter Families" campaign, conducted by the rural department of A. & M. College.

AN OPEN LETTER.

Mexia, Sept. 23, 1924.

Dear Brother: There will be an open air meeting in front of the Mexia Baptist Church Monday night, Oct. 13th. Dr. F. S. Groner, our beloved State Secretary will deliver a message concerning Jesus program for his people that will stir our souls to the greatest depths.

Following Dr. Groner, Dr. Geo. W. Truett will preach. His presentation of the gospel message has swayed multitudes on both sides of the Atlantic and blessed and comforted men around the world.

Many in this section have longed for the opportunity to hear this mighty man of God. It is yours now. Don't let it slip. We hope to announce the time of the county wide revival to be held at Mexia at this meeting.

If you miss this meeting, we confidently feel that you will miss the greatest religious gathering ever held in this section of the state. It will be a meeting composed of men and women from Limestone and all adjoining counties.

We both cordially invite and earnestly urge you to be present.

Signed: JOE JEFFERS, Pastor Mexia. P. P. LEWIS, Mod. of Asso. J. S. TAYLOR, Missionary.

Mexia High Plays Itasca High Here Tomorrow

BLACK CATS HAVE ONE OF BIGGEST GAMES OF SEASON AT NOWLIN PARK TOMORROW

It is not customary for the biggest games on the schedule to be played near the opening of the season, but tomorrow is an exception with the Mexia high. Itasca looms as one of the strongest, if not the strongest contender for class B championship for this district. The High School Black Cats have a wonderful squad and so far have not had to use their full strength, as the walkover here last Friday did not tax the real strength of the Cats when they defeated Coolidge 79 to 0.

Coach Poteet has been working his men exceptionally hard for the past few days, correcting weak spots and any other faults that showed up in the opening game. He has spent much time in developing a punter, several changes have also been made in the line-up. This is the last game that will be played in Mexia for several weeks, as the Cats play at Ennis next week. Marlin the week following that, the next game to be played at Nowlin park will probably not come before November 7th, when the Black Cats clash with Groesbeck. The date of Oct. 24th, is still open. Tomorrow afternoon at 3:30 sharp two of the strongest contenders for this district meet at Nowlin Park, do not fail to witness this game. Ennis, Marlin and Birt will be especially interested in this game, as both teams will show up their true form.

DOPE DECLARES ITASCA TEAM IS TO BEAT MEXIA

By HECK.

With splendid football weather a hand Coach Poteet has been driving the Mexia High Black Cats at a terrific clip the past few days; justifying his charges in shape for the Itasca game here Friday. From the side line it looks as though the Coach figures on using a forward passing game from the way he drives the Cats through the sprouts with aerial formations but he may be doing that just to correct the faults shown in the Coolidge contest last Friday when the Cats passing game did not look so good. The main squad going through the signal drills at present is composed of Auld and Huetel at ends; Thompson and Lucas at Tackles; Arrington and Corley at Guards; Bennett at center; Kerner and Perkins at Halfbacks; Buford at full and Clover at quarter. This squad will average close to the one hundred fifty pound mark and reel off their plays with precision and much elat. The dope gives Itasca the edge on the Cats and said dope also says they should win by three touchdowns but my hunch is that if the Cats will only come out of the kinks and not get overconfident over their easy win over Coolidge the Itascians are due for a real battle and are not such a cinch for a win as the dope carries. Anyhow, Marlin hopes that the Cats will get beat and be eliminated from the race, so does Mart, Ennis, Teague, Cordeana and others who are due to tangle with the Cats in the future. Several weak spots came to light during the Coolidge game and I notice that the Coach is working hard to correct them and if you don't believe it just wander out to the High School grounds and watch him drive the Cats to a frazzle until its too dark to see the ball.

The Westminster-Weaver game last Saturday was a splendid picture of the immovable meeting the irresistible and while the game lacked the dash and open play that is characteristic with the high school games the fans were treated to a great exhibition of head-on collisions which tore great holes in mother earth over all parts of the field. However, my dope is for the Black Cats and you guess fans are sure missing many a thrill if you don't see them in action and their game here Friday with the Itasca High is sure to be crammed full of spine tickling plays that will be well worth any man's money. Friday noon the Cats will be guests of the Mexia Lions and it is sure tough on the kids as they won't be allowed to eat the fancy grub that the Lions rear over but at the same time it will help them get their mind off the afternoon's game and the Lions will install some of their well known pep into the squad and that will only make it tougher on Itasca when they lock horns at 3:30.

Anyhow you fans make your plans now to be out at Nowlin park Friday and bring a horn, whistle or anything that will make a noise and help the Cats spill the dope and trun Itasca.

Had To Take His Medicine On Time

(By United Press)

DALLAS, Oct. 2.—One Dallas cop is still baffled by what he saw a few days ago and is dizzy from trying to decide what he ought to have done.

A man, apparently well-fed, halted on a street corner of his beat, took a bottle from his hip-pocket, a spoon from his vest, poured out a "dose" and swallowed pleasantly.

"He?" shouted the cop "what's the idea?"

"Just taking my medicine, officer," the "patient" replied calmly.

The "prescription" on the bottle read: "One tablespoon every four hours."

"Took my first at 6 a. m. at home and its time for another," the man said.

"Too much for me," the policeman, still dizzy, said as he walked away.

MAKE YOUR FACE AS LOVELY AS YOU ARE!

All most people see in anyone is what is on the outside. Naturally, those who are handicapped by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention.

You can "make the frame as lovely as the picture really is," by simply getting rid of those skin disfigurements. If you will just use Black and White Ointment, and Soap. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be around you. They are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap. (Adv.)

WALTER JOHNSON Great Pitcher to Whom the Game Has Brought Reward

(By United Press)

NEW YORK, Oct. 2.—For seventeen years Walter Johnson, the star pitcher for the Washington Senators, has been waiting patiently to get into the world's series.

The fates seemed to step in this year and grant him his ambition, just as he was about to retire from the major leagues and become a club owner in the Pacific Coast League.

Certainly no one allowed the Senators a chance to win the American League pennant when they started last April. There were four other clubs in the race that seemed better fixed to go through the hard pennant drive but there was no Johnson on the four other clubs.

Not only that great right arm, which threw them past the batters in the American League for fifteen years, made Johnson the big factor in the success of the Senators. It was his manliness, his genial disposition and his fine big heart that helped plant the winning spirit in the club.

Johnson has always been so popular all over the circuit and he has always been such a credit to baseball and to his team that he was the popular nominee for appointment to the position as manager of the club when Clarke Griffith was looking around for one last winter.

Ban Johnson, president of the American League, was only one of the few who thought that Johnson could be rewarded best for his long and loyal service in the league by appointment to the managership and that his career might be prolonged indefinitely if he made a success of the job.

It was the cause of some surprise then when Griffith appointed Stanley Harris, one of the youngest men on the team, as the new manager. Harris was only ten years old when Johnson started to pitch for the Senators and it was thought that the veteran might consider it an affront that a baby should be placed in a position over him.

Johnson is not made of that stuff, however. He was in a position to help make it to break the kid manager. He was the leader of the squad, the one to whom all the others looked up for advice and inspiration. If Johnson did not tell them actually, he let them know that Buck Harris was all right and that he was for him, arm, heart and soul.

The grand old veteran went out and proceeded to pitch some of the best ball of his career. His support of his young manager was not

RHEUMATISM

Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinges of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

Mr. James H. Allen of Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, declares all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. Anderson & Horn can supply you. (adv.)

Church Visitation
Week Observed Here

The members of the congregation of the First Presbyterian Church are engaged this week in the observance of Church Visitation Week in an effort to promote fellowship in the Church as well as among all outside the Church, and in preparation for Rally Day which is to be observed by the Sunday School next Sunday.

The purpose of Rally Day is to gather into all the departments of the Church those who have been negligent or have fallen out of line and to enlist new members and workers.

A program will be presented by the Sunday School at 9:45 and the pastor will have a five minute Children's sermon at 11 o'clock, followed by a sermon for grown folks on the subject "Make Jesus King."

Many new members have been enlisted in the Sunday School already. Eight new members were received by the Session at their meeting Wednesday evening.

A committee consisting of V. B. Gardner and G. E. Mitchell reported on plans for repainting the Church building.

The Rev. John R. Kidd, D. D. who created a fine impression and did good work in the congregation last April, has promised to return with a singer for the last two weeks of next March.

The pastor Mr. Hudson and G. E. Mitchell will attend the Synod of Texas which will convene in Abilene Oct. 23.

Independent Executrix of the Estate of Hugh L. Adamson, Deceased.

MYSTERY MAN AT STATE FAIR

Harry Houdini, most famous "mystery man" in the world, is to be a special attraction at the State Fair of Texas, Dallas, one day only, on the afternoon of Sunday, Oct. 12. Houdini is to present his latest demonstration of the work of "spiritualistic" mediums, in connection with his lecture on the subject, "Can the Dead Speak to the Living." He declares they can't, and his expose of "fake" mediums is declared to be the most absorbing entertainment ever conceived. It is all the more interesting because it is given in broad daylight, and with none of the curtains and other appliances used at so-called "seances."

JAPANESE LANDLORDS AND TENANTS
ROW OVER POST-EARTHQUAKE RENTS

By HUGH J. SHUCK,
Information News Service Staff
Correspondent.

TOKYO, Oct. 2.—Thousands of tenants here held a demonstration meeting at Ueno Park recently to voice their grievance against the greedy landlords who took advantage of the earthquake and fire of last September to squeeze high rentals from them.

Not all of the landlords have aroused the indignation of their tenants, however. Many of them acted very generously, often relinquishing their claims for rent for six months or a year and assisting the unfortunate to get back on their feet again.

In a good many cases the tenant's were the greedy ones. A number of stories were related at the Ueno meeting of litigation between landowners and renters, some of which were settled in the courts.

One instance was that of a tenant who constructed a shack on the site of the house he had lost by fire, without the consent of the owner. For some months the landlord made no attempt to collect rent, thinking that the ill luck of the renter justified such a step. At length he demanded rent, but it was refused, first on one pretext and then another.

Things dragged for some time, and at last the landlord consulted his attorney. In his haste to build the shack, the tenant had left a foot of vacant land in front of the building. Acting on the advice of his attorney the landlord built a high board fence in front of the shack leaving an entrance at one end in order to avoid the charge of tampering with the personal liberty of the tenant.

The occupant of the house could go in and out if he chose, and customers could enter the shop he maintained in the shack if they wished—provided they knew how to find their way around the fence. But in a day or two the business of the shop dropped down to almost nothing, and the tenant did not dare tear down the fence. The case was at last brought before the court and decided in favor of the landlord.

In a similar case a landlord built a wall right against three sides of a department store when the tenant refused to pay his rent, and in a short time the business had fallen off to such an extent that the tenant capitulated.

Another landlord who tried in vain to collect his rent hired a beggar, clothed in rags, to dun his tenant for the amount overdue. One morning the tenant found the beggar knocking at his door and tried to chase him away. The beggar, however, was armed with the power of attorney and refused to go. Filthy and unkempt, he took up his station in front of the house. At length, in shame, the tenant—who was also an attorney and realized the weakness of his position—paid his overdue rent and rid the premises of his uncouth visitor.

LANDIS THROWS
TWO PLAYERS
ON TABOO
LIST

(By United Press)
NEW YORK, Oct. 2.—Wistful boyish Jimmy O'Connell, Giant outfielder who was thrown out of organized baseball by Commissioner Landis for offering to bribe a player of the Philadelphia National League club showed up at the club house at the Polo grounds this morning and declared that he had "been made the goat in this business." O'Connell said he had received no notice that he and Coach Dolan had been placed on the ineligible list. O'Connell said he approached player Sard and offered him \$500 if he "wouldn't bear down" in the Saturday's game, which the Giants needed to clinch the pennant. He declared that Sand said "nothing doing." In reply offered Sand \$500. O'Connell said Dolan told him "all team in on deal." Other players of the Giants club were given clean bill of health by Landis.

(By United Press)
NEW YORK, Oct. 2.—Baseball critics were thrown in a frenzy of excitement here today by announcement that Jimmy O'Connell, outfielder and "Cozy" Dolan, coach of the Giants have been placed on the ineligible list for attempting to bribe Shortstop Heine Sand of the Philadelphia National League club to throw a game last Saturday. The game was the one in which the Giants clinched the National League championship. Announcement of the action was made by Judge Landis, ex- of organized baseball. Sand was offered \$500 to throw the game and refused, reporting the case to his superiors. Baseball critics here admitted the scandal will cause the Giants to go into the World's Series against the Washington Senators, champions of the American League, under a considerable handicap. Landis' action followed a two-day investigation ending with O'Connell confessing, which charged that Dolan instigated the plan and sought to implicate George Kelly, first base man Frank Frisch, captain of the Giants and Ross Young, outfielder. These players, however, were cleared. The Commissioner issued the following statement:

"Player O'Connell and Coach Dolan of the New York National League Baseball Club have today been placed on the ineligible list. This action was taken by the Commissioner on evidence furnished by the confession of O'Connell and the testimony of Dolan. "It appears that on Saturday Sept. 27, O'Connell offered Player Sand of the Philadelphia Nationals \$500 to throw the ball game. Sand refused promptly and reported to Manager Fletcher. This was followed by the Commissioner's investigation in conference with the officials of the New York Club which resulted in O'Connell's confession, which placed the responsibility of instigating the scheme on Dolan, whose testimony on his own behalf was of such a character as to be unacceptable. "O'Connell's confession sought to implicate players Frisch, Young and Kelly of the New York Club, but their testimony in the Commissioner's opinion was a clear refutation of the charge, which, standing alone, was exceedingly unreasonable. "The Commissioner desires to express his heartiest commendation of player Sand."

Coming on the eve of the World Series the loss of O'Connell may prove a severe blow to the Giants if Captain Frisch, out of the game for two weeks on account of an injured finger, is unable to play. Under such conditions Kelly probably will play second base. Terry taking first and O'Connell would have been the logical choice for center-field. It is probable if Frisch plays, that Kelly will go to center.

BUTTE ATTACKS
THE RECORD OF
FERGUSON IN
OPENER

(By United Press)
SHERMAN, Teas, Oct. 2.—Dr. George C. Butte, republican nominee for governor, opened his campaign against Mrs. Miriam A. Ferguson, democratic nominee, here last night with an attack upon the record of former governor James E. Ferguson. Declaring Ferguson "would be governor by proxy" in event of Mrs. Ferguson's election. Butte called upon democratic voters to "rise and wrest the affairs of government from the hands that are not worthy of them. Butte attacked the clemency record of the former governor and refused to bring in the Klan issue, declaring its inclusion in the campaign was "used as a smoke screen." The republican nominee declared the question of the eligibility of the woman nominee was a matter for the court's to decide, adding that he was willing to let the case be "decided" at the polls in November. Butte is scheduled to address a "Butte for Governor" women's club at Dallas this afternoon.

NEW LIFE NOTED
IN BIG SERIES
AS SENATORS
IN CONTEST

(By United Press Staff Correspondent)
WASHINGTON, Oct. 2.—After a lapse of three years the World's Series again has become something more than a bunch of ball games. Washington fondling a pennant with all the joy and fervor of a first-born, has put a life into the series that has been lacking since New York turned the baseball classic into a drab and colorless city series. Cincinnati made a great civic event of the series when the Reds won their first National League pennant in 1919 and Cleveland declared an extended holiday when the Indians won their first American League pennant in 1920. But Cincinnati and Cleveland didn't have a head of the Nation to lead the cheering for their victors. They didn't have the occasion to kick over the dignity and the position that Washington had to show the more convincingly how crazy they were over baseball. Even the bit of scandal that cropped up when Commissioner Landis declared two members of the Giant squad ineligible for a shady transaction, failed to take any of the joy out of Washington's life. "The Giants did that. Our boys wouldn't do it. They had the class to go out and win without wanting anyone to lay down for them," was the general comment around the city today. The announcement that Landis had barred Jimmy O'Connell, the former \$75,000 beauty from the Pacific Coast and Cozy Bolan McGray's second Lieutenant and the chief kephole watcher of the club, for offering Heine Sand, the Philadelphia shortstop \$500 to throw a game was not regarded as a great sensation here. It was looked upon as being more foolish than crooked because the Giants had the pennant as good as clinched and the Phillies certainly could not have been regarded as such a menace. The situation recalled the 1919 White Sox scandal when it developed other clubs in a pennant fight had occasionally regarded a pitcher for beating their rivals. There was nothing brought out at the time, however, that indicated any efforts had been made by a pennant contending team to get another club to throw a game. It was said in 1919 that one of the Detroit pitchers had been offered money to win a game but not to throw it. Unless other Giants are implicated and Landis has intimated that so far he has found no evidence of other complicity, the loss of O'Connell and Dolan will not reduce the strength of the Giants as O'Connell is not a regular player and Dolan will not be vital loss on the coaching lines. O'Connell got his name from the price paid for him and not for anything he has ever done with the Giants.

The Washington club worked out this morning at the ball park under their young manager Buck Harris. They went through a stiff three hour batting and fielding drill and in the manner of a boxer they will have only a "breather" tomorrow as the final workout.

The aim of the pageant will be to portray the influence of the young people's religious activities. Following the pageant Mrs. W. E. Britton of Ennis will lecture. Her talk will probably deal with the work of the young people.

Greatest Aerial
Meet Is Now On

(By United Press)
WILBUR WRIGHT FIELD, Dayton, Ohio, Oct. 2.—Clear skies canopied this big flying field today for the opening of the international air races.

Soaring into the sky over the same historical ground used by the Wright Brothers for their early experiments with the airplane what promised to be the greatest aerial meet in history got under way at 10 a. m. Thirteen pilots were entered in the first race of the three-day meet, the National cash register trophy, a 90-mile grind, six times around a closed course of fifteen miles. Besides the trophy \$3,000 in Liberty bonds were to be distributed among the winners. Only commercial planes of low horse power are entered. The Central Labor Union of Dayton trophy, second event on the morning program calls for trip of eight times around the 15-mile course. Sixteen pilots of two, three and four-passenger commercial planes are entered. The third and last event on today's card is the Liberty engine builders trophy 180 miles over a 15-mile course. Eleven standard De Havilland planes are entered.

Racing Not To Be
Barred At Dallas
During State Fair

DALLAS, Tex., Oct. 2.—Ten days of intensive effort at the State Fair of Texas opened on Monday, in preparation for the formal start of the thirty-eight annual State Fair, Oct. 11 next. Both the new agricultural hall and the new Spanish Village in the main exhibit building, are ready for exhibitors. The special "tent theater" which will house this year's big musical show, is up, the flooring is laid and the stage is ready, including special lighting effects. For the 1925 State Fair the new State Fair auditorium will take care of the musical production.

Special electric "floods" have also been placed in the athletic stadium, in readiness for the All-Collegiate Circus on the night of Saturday, Oct. 18. Incidentally the stadium field is in the pink of perfect condition for the six big football games scheduled during the Fair dates. All Texas railroads have joined in a round-trip rate of three fourths the one-way fare from all points in Texas, good on trains arriving in Dallas on the mornings of Saturday, Oct. 11, Saturday, Oct. 18 and Saturday, Oct. 25. Travellers can remain in Dallas until the following Sunday nights. The full thirteen day racing program will be carried out despite the closing of the livestock show under a ruling of the state livestock sanitary board. More than 200 fine horses are enroute or unloading, following telegrams to their owners that the cattle quarantine against South Texas will not weigh against racing stock. No department of the State Fair, save the live stock and poultry divisions, will be in the least affected by the quarantine order.

LONDON PAPERS REPORT
ANTS' PITCHED BATTLE

(By International News Service.)
LONDON, Oct. 2.—Idealists will probably be shocked to learn that the war fever still clutches modern London. Great excitement has been caused by a war between rival colonies of ants at the Regent's Park Zoo. Newspapers have carried daily dispatches from the front, written in the test war style. Crowds have gathered to see the battle progressing day by day, and the picture papers have made magnificent photographs of the daily engagement. The newspapers have announced that the authorities prepared a white-sand battlefield, with concentrated lights to aid the war between the two armies of ants. The publicity given to this "war" has not been without protest, and some newspapers have printed violent criticism from ex-soldiers against such methods of making "an English holiday."

The new brick highway from Mineral Wells to the Parker County line has been completed, giving a surfaced highway all the way from Mineral Wells to Dallas by way of Weatherford. This means one more good motor route open in time for the State Fair of Texas, Dallas, Oct. 11-26.

She Planned to Murder Her Husband; Prominent Woman Confesses Gruesome Details

How she deliberately planned the murder of her husband has just been revealed in a confession by Edwina Levin MacDonald, of New York City. Goaded by a grimacing of having to live in the home and use the servants and silver of a former wife, she set about to lay careful plans to put her husband out of the way.

Mrs. MacDonald went so far as to have a farewell party attended by two hundred, because after the deed she knew she would be taken into immediate custody. Increasingly obsessed with the gruesome details as the fatal night approached, she dreamed she had committed the act and overcome with terror confessed all to her husband.

Assigning a motive for this near tragedy, she describes in an article in "Hearst's International" for October the developments leading up to the plot.

"Marrying a divorced man," she says, "I might have been expected to foresee my situation; but foresight is based on foreknowledge. And youth has only its dreams upon which to base its expectations. In one swift, blinding shock I had come upon the truth. All this beauty of detail was the handiwork of the creation, so to speak, of another woman. Bought for her. Planned and arranged by and for her, reflecting her taste, her individuality.

"Even her servants had been handed down to me. They had seen another woman sit where I now sat; they had witnessed his caresses bestowed upon her, and would, with sly waggings of the head, watch him repeat himself to me.

"A second-hand house, second-hand furniture, second-hand servants—a second-hand husband. Even this first dinner alone with his bride was a reproduction, for him, of that day ten years ago.

"All beauty went out of my home in that hour. Perhaps some what of my love for my husband I was aware of a passionate resentment toward him and secret rebellion.

"What thoughts fell one upon

another, what fancies assailed me! As, together, we later entered that all-lavender room, must be apparent. In the mirrors which now reflected my face, he had seen her face reflected for nine years. On that mahogany bench she had sat to take down her hair night after night.

Thus is the confession of the sixteen year old bride told in all its reality until the climax is reached.

"Humiliation and bitterness walked with me constantly. I was in a dungeon from which my husband's death alone could set me free. He was responsible for my multiplied helplessness. He was responsible for my incarceration. He was responsible for my multiplied helplessness. Thus the desire for his death was born."

Andrews May Not Get His Name On Ballot In State

(By United Press)

AUSTIN, Texas, Oct. 2.—The attorney General's Department has advised Secretary of State J. J. Strickland that the evidence furnished that official in the organization of the so-called Anti-Ferguson party is not sufficient and does not meet the requirements of the law.

No evidence has been furnished as to the details of the meeting or convention which nominates Andrews and there is nothing to show how many persons attended the meeting at which the new party was organized.

New Treatment For Swollen Glands

People who have enlarged glands ought to know that by freely applying Emerald Oil daily the gland can be brought to a head and all the germs and poisonous secretions discharged and destroyed.

Furthermore the ointment will heal surely and speedily without leaving an unsightly scar. People who desire this treatment should secure a two-ounce original bottle of Emerald Oil (full strength) and use as directed. It is a very concentrated preparation and a small quantity lasts a long time. It is also used to reduce swollen veins and dissolves goitre.—(Adv.)

SALT LAKE CITY BEAUTIFUL MONUMENT TO THE PIONEERS WHO BRAVED DESERT AND MADE BARREN WASTES PROSPEROUS

By FRED S. KARNER.

After leaving Yellowstone our route led us South thru Pocatello, Idaho on into Salt Lake City, Utah. The roads of all these western states make a Texan wish that the progressive spirit and vision of what they mean to a people and a state would dawn on those in power and the leaders of our great Empire commonwealth. The roads are all well-improved thoroughfares and except for a detour at some one point they are continuous well built highways leading thru and from one state into the other. This has been accomplished by cooperation with the Federal authorities and with Federal aid and cannot be accomplished any other way.

No political obstacles or would be politicians with injunctions as their sole weapon to influence the ignorant voter are allowed in the path of this vast empire. Men of vision and with no selfish office-seeking aspirations are riding the wind of progress. They are leaders and love their native states. The farmers are all prosperous for they bring their produce over these good roads to a waiting market and their children ride to school every scholastic day in a bus especially built and maintained for their use. No one is injured by taxes—in fact I never heard the word mentioned on the entire trip. The farmers have cash money every day in the year for the one reason that when it is bad weather and he can't work on the farm he loads up with chickens, eggs, fruit and produce and returns with a well filled purse.

These conditions have turned a barren desert waste into a land of promise filled with milk and honey.

On into Salt Lake amid towering mountains and fertile valleys made rich and productive thru irrigation. Let me give you a wee bit of history that you have perhaps forgotten on account of this section being more or less remote—as our busy lives are wont to exclude those localities with whom we are not thrown in constant touch. There is one man, one great dominant motive in the soul sublime that we fortunate Americans pass by unnoticed and no man or group of men have accomplished more than this man and his great compelling incentive—I refer to the pioneer. You and I and all are enjoying today the luxuries of a well ordered life—Why? Merely for the reason that some big soul, unafraid, went out in the wilderness on the plains and thru all manner of perils and blazed the way.

I often stand and look with great admiration at the monuments and statues erected to the soldier who has given his life on the field of battle. But how many have been raised toward the blue dome above for the heroes that marched not with bugle call or the fan-flare of trumpet and the spine-thrilling shouts of the populace—but he who trod the uncharted course thru pathless forest and unmarked plain and desert. He who was beset on all sides with the howl of the hungry beast and the grim visage of famine. This dauntless soul that peered far into an unknown land, counted not his own gain but the reclaiming to civilization of his Master's domain.

This thought strikes you constantly by all thru this Western country and

all their earthly belongings on push carts and faith in the God above turned their faces to the west and their souls to a sacrificial test. There lay between them and their destination—that they knew not where—a vast domain of plain, wilderness and mountainous waste that no man had ventured near.

There were several thousand that left on this "test of courage." Just one hundred and forty seven lived to reach what is now known as Salt Lake. Several of the push carts are today on exhibition there a silent reminder of indomitable will and faith that passeth the understanding of man. Many died on the way from exhaustion and with ills that beset such efforts and risks. The leader that carried the torch of hope was none other than Brigham Young. I have no argument with any man as to his religion. There is much that is good in all. Forget for a while that Brigham Young was what we term a Mormon and consider his efforts and his results.

Just here allow me to state that the real name of this faith is "Church of Christ of Latter Day Saints." The name Mormon is a nickname. What I am stressing is the human side of this band of pioneers and this leader. It is said when he reached the valley in which today Salt Lake City flourishes, he stated "It is here we will build the Tabernacle." It was a valley so closely resembling a desert that the two are synonymous. He and his weary band—wary only in their physical attainments—started the reclaiming of the desert. They had brought their seed for the crops and these they planted and were made to sprout and grow by the first irrigation method that was ever tried in the Americas. History records Brigham Young this honor.

Just as their first crop was beginning to bear fruit there swept down upon this band of workers hordes of black locust. They began to fight

Establishes New Speed Record in Flying

LT. DAVID RITTENHOUSE

Beating his own world's record by more than fifty miles an hour, Lieutenant David Rittenhouse, U. S. N., flying a Navy Curtiss sea-plane racer over Long Island Sound, attained a speed of 247 1/2 miles an hour. He flew a plane intended to defend the Schneider cup, but England and Italy withdrew their entries from the race, which was to have been flown at Baltimore, Md.

them with all available methods at their command. They would kill them and then burn these insects after being swept into huge piles. And yet they came. The situation was most serious for it meant starvation. It was too far to send back for seed. There was no such thing as a telephone—mail or telegraph—there was no mode of communication with the rest of the world. Their seed had all been planted and even tho they had other seed they would all starve before another crop could be made even before freshly planted seed could germinate. Their plight was pitiful and almost hopeless. They fought both night and day and were

on the verge of giving up the fight thru exhaustion when one day it was suggested that they pray. This they did with all the fervor of Christian martyrs. Almost immediately as if in direct answer to their prayers there flew in from the sea vast flocks of sea gulls. These eagles of the sea started at once on the destruction of the pest that was taking the food from the toilers and in a short while had destroyed them.

This is history and is not some fantastic tale of religious propagation. In the grounds of the tabernacle there stands today a huge monument erected to the Sea Gull, commemorating the birds' service to humanity and this band of pioneers.

Brigham Young from then on founded his church and religion and thru his efforts irrigation was the sustaining life of this section. Since then it is a matter of history how the entire west and the desert places have been made most productive and to yield food and supplies beyond the dream of avarice. There would today be no California—no boundless orchards of fruit and great cities with thriving populations were it not for irrigation in what we call the Golden West.

Many of the News' readers have seen the Mormon Tabernacle—the greatest building of its kind in the world and in which is one of the wonder pipe organs of all times. Al so in these grounds is located the Temple. No Mormon is allowed in the Temple only that he lives in every way and manner as befits the perfect christian as is demanded in the tenets of this religion. We are so wont to cast aspersions and point a critical finger at doctrines and religion other than that of our own.

The writer asked many questions of a Mormon minister while in Salt Lake—not thru curiosity but in an effort to learn of their teachings and found many commendable regulations and demands in their code of ethics.

Total abstinence with Mormons includes not only intoxicating beverages but such stimulants as tea and coffee and no tobacco. On casual inquiries around the city I also found that the word of a Mormon is his

bond. Polygamy was abandoned thirty-two years ago. The true historian or recorder of events hands down what he sees and hears untarnished with or by personal like and dislike and I hand you these facts as truths of a people and a religion we know every little of in this section. Salt Lake City with its wide avenues and stately trees attest the spirit of progress and cleanliness.

One thought takes possession of you as you view this western city reclaimed from the desert and that is that all of this could not have been without the benificent approval of a Supreme Deity. For the almost unbelievable has been brought to pass.

I refer to the success of this band of one hundred and forty-seven pioneers that faced untold hardships, that braved the elements allied with the danger of wild animals and starvation ever present and yet today a giant city in all the grandeur and splendor of modern enlightenment raises its gilded spires a living monument to what we call man's restless soul. The soul of the PIONEER.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.—(Adv.)

Entered as second-class matter, February 26, 1919, at the Postoffice at Mexia, Texas, under the act of March 3, 1879.

"For Mexia, I WILL"

Planning for a Better Mexia.

With so many new matters coming up, outside of the routine business of the City Commission, a wise step at this time would be the appointment by the city commission of a city plan committee, composed of about seven members, men and women, with the Mayor and City Secretary as Ex-officio members. This committee then could go into such matters as the proper care of city parks, beautification and sanitary proposals, adequate fire protection, street lighting problems, etc. In cities of 10,000 and above the plan has been tried with great results for good. The committee serves gratis, represents every section and interest of the city, is sanctioned by the Chamber of Commerce and other civic clubs with whom it works.

The plan is the compass and the commission is the pilot. In 22 states of the Union, this department in municipal administration is recognized by statutes.

Just as there is no standard city plan, there is no standard city plan committee. In Massachusetts, the planning boards are mandatory in cities of 10,000 and vary in number from five upwards, made up of city officials and citizens, the terms overlapping so as to provide continuity of service. Seven members have been found very desirable, as then all influential citizen groups may be represented.

In the instance of our city, the committee naturally should have only advisory powers, since their work would involve existing municipal departments and interests.

Such a commission would be in keeping with the reputation of Mexia, known far and near as "The City That Vision Is Building." The committee should, therefore, have eyes to look ahead.

For example, suppose the city planning committee should investigate carefully the situation in Mexia and decide that the fire department should have additional equipment, and an appropriation should be made out of the annual municipal budget to finance the upkeep and improvement of Hughes Park, the committee's duty then would be to interpret the plan for the officials and citizenship and wherever it is necessary or desirable for the voters to pass upon a project or proposition, the voice of the commission and the committee submitting the subject matter would soon come to be accepted as the best judgment and wisest counsel offered.

AN OBJECT LESSON

The object lesson our people have had in watching a man like Owen D. Young work out the European reparations treaty in the capacity of a private citizen has helped crystallize in American mind in favor of more business and less politics in governmental affairs.

Commenting on the work done by Mr. Young, President Lowell of Harvard said:

"Owen D. Young, a master builder, through a wilderness, of a highway on which the nations may travel and find the road to justice and peace."

Politicians can talk about plans to help the farmers, but American business men in working out the Dawes plan and securing its adoption have done more to furnish markets for the farmer's produce and establish agricultural conditions for America and the world than has ever been done before in the world's history.

That's business, not politics.

El Paso Citizens Forced Eat Chicken

(By United Press)

EL PASO, Oct. 2.—City Sanitary Inspectors Crowson and Rule recently presented South El Paso tenement dwellers with a week of royal feasting—that is, an edict which forced them to eat.

Inspections of 178 tenement rooms provoked the feasts. In every house where they found chickens chained to a bedstead or otherwise detained in sleeping rooms with the rest of the family, they ordered the chickens out.

Fearing losses if they chained their fowls in community yards, the owners thought a feast the easiest way out of the situation. Even turkeys figured in the week of feasting, inspectors say.

As Gentle as an Ocean Breeze!

You can't imagine how pleasant this new mild calomel is to take. Each little tablet is sugar-coated and free from medicine-like repulsiveness. One or two at bed time makes you feel "top hole" as the Britishers say. It cannot salivate. Take it and eat anything you like. It is so mild and gentle you will hardly know that you have taken medicine. Nasty salts or other "follow-ups" not necessary. It does all any calomel can do—but it does it without drastic effects. Sold by all good drug stores. Prepared by the Peppin-Calomel Co., Atlanta, Georgia.

Took a Friend's Advice
Houston, Texas.—"When I was comparatively a young woman I became afflicted with woman's trouble and got so I could hardly walk. I had a delicacy in submitting my case to the doctor. Finally a friend advised me to try Dr. Pierce's Favorite Prescription. I did so and before I had taken three bottles I was all right. Later on in life I became afflicted with a kind of poison in my blood; for this I took the 'Golden Medical Discovery' and gradually my blood became pure. I never again had anything like either of these afflictions."—Mrs. D. M. Wilson, 1521 Fulton St. All dealers.

THREE MORE MEXIA LADS NOW TENDERFOOT SCOUTS

In the list of the Mexia boys who classified last Friday night as Tenderfoot Scouts of the first class, the following names were inadvertently omitted: Edward Allen, Edward Adamson and Kenneth Blue. They received their certificates at the meeting called by Scoutmaster Z. Rochelle at the legion hall at that time.

A. F. of L. Gavel From Historic Freedom Elm

(By United Press)
NACOGDOCHES, Texas, Oct. 2.—When Samuel Gompers gavelled the annual convention of the American Federation of Labor into order at El Paso, Texas, on November 17, he will use a gavel made in Texas, from Texas wood, by a Texas man. R. M. Ware of Terrell, Texas, has made plans to insure the above com-

mission. Ware was given the contract for construction of the gavel with the stipulation that it shall be made from some piece of timber with historic associations. Casting about, Ware remembered the location of an ancient elm tree near here under which he had been told that Sam Houston, Texas leader, held councils before the birth of the Texas Republic. Beneath the veteran elm it was related, the first protestant sermon was delivered when this sect was largely populated with Spanish. Ware secured two blocks from the ancient elm, which was blasted by lightning twenty years ago and which had been preserved by Robert Lindsey, secretary of the chamber of commerce here, in anticipation of a demand for relics of the historic tree.

Queen Mary Sets The Knitted Vogue!

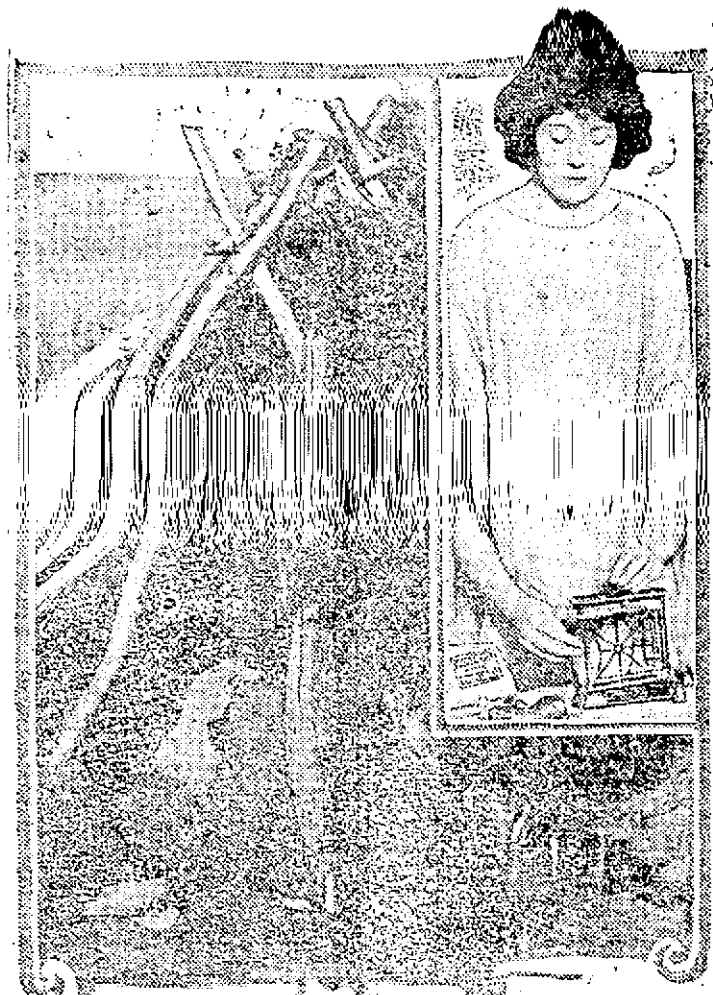

ONE of the shortest roads to chic now-a-days is by way of knitted outerwear. The smartest sets have taken it into their hearts and into their wardrobes—even royalty is not immune to its allure. Its latest sponsor of note is Queen Mary, who has selected a variety of knitted costumes for her stay this fall at Balmoral Castle in Scotland. This royal guidance of the mode, in combination with the brilliance and charm of the new knitted presentations, will, without doubt, be of utmost significance to millady in assembling her fall and winter wardrobe. Knitted frocks and sweaters of soft brushed wools are almost necessities for cold weather comfort—but the newest knitted style note is to be found in the three-quarter and top coat offerings. Strikingly novel is a full length coat cut from a knitted fabric developed in an all-over silver and steel grey oblong pattern. Its luxurious collar and cuffs which simulate fur are in reality made of sheared or "bobbed" wool.

This Prescription For Kidneys

No Drugs—Just Roots and Herbs!
6 OUNCE BOTTLE, 75c.
Years ago Dr. Carey said, "When backache comes get after your kidneys—and don't waste any time."
"Right at the start, go to your druggist and ask for Dr. Carey's Marshroot Prescription No. 777; take it as directed until backache ceases and your eyes are clear and bright."
For more than 40 years Dr. Carey specialized in diseases of the kidney and bladder, and when, in the height of his remarkably busy life, he decided to dispense his most effective kidney and bladder prescription through the better druggists he helped thousands who could not afford to go to him for treatment.
Thousands of unobtrusive people have kidney ailments and never know it until too late. High colored urine, getting up in the night, and puffy eyes tell the story.
If you even suspect—start today with Dr. Carey's Marshroot Prescription No. 777. It will drive the poisons from your kidneys and your druggist knows all about it.
Alderson & Korn dispense lots of it. It comes both in liquid and tablet form. It will help you as it has a host of others. If it should not, if you aren't glad in one week's time that you bought it, money gladly returned—and only 75c.—(Adv.)

"A Loaf of Bread, Electric Toast and Thou" Modern Omar's Perfect Breakfast

Breakfast appears to be a (the ideal breakfast, toast was specified as an essential by over 60% of those queried. This preference is recognized by scientific bakers, and one of the things for which bread is tested is its toasting qualities. According to breakfast, of fruit, coffee, toast, Dr. Charles Hoffmann, chief chemist of the Ward Baking Company, noted for the excellence of their large quantities of rich ingredients, milk, sugar and shortening, which enter into a loaf of bread, determine the golden-brown color of perfect toast; the fineness of the flour, its moisture, composition and mellowness, together with the scientific leavening of the entire mixture, give the particular "short" taste which we survey by an hotel magazine as to, enjoy in good toast.

MOTHERS AT STATE FAIR OCTOBER IS THIS YEAR

Oct. 18 has been designated as Texas Congress of Mothers' Day at the State Fair of Texas this year, at the request of Mrs. Ella Carothers Porter, founder of the organization. Mrs. S. M. N. Mares is president of the Congress and Mrs. Stephen Chamness, also of Austin, executive secretary. The Congress is vitally interested in child welfare, and at the 1921 State Fair will take an active part in the "Fitter Families" campaign, conducted by the rural department of A. & M. College. R. M. AN OPEN LETTER.
Mexia, Sept. 23, 1924.
Dear Brother:
There will be an open air meeting in front of the Mexia Baptist Church Monday night, Oct. 13th. Dr. F. S. Groner, our beloved State Secretary will deliver a message concerning Jesus program for his people that will stir our souls to the greatest depths.

Following Dr. Groner, Dr. Leo W. Truett will preach.

His presentation of the gospel message has swayed multitudes on both sides of the Atlantic and blessed and comforted men around the world. Many in this section have longed for the opportunity to hear this mighty man of God. It is yours now. Don't let it slip. We hope to announce the time of the county wide revival to be held at Mexia at this meeting. If you miss this meeting, we confidently feel that you will miss the greatest religious gathering ever held in this section of the state. It will be a meeting composed of men and women from Limestone and all adjoining counties. We both cordially invite and earnestly urge you to be present. Signed: JOE JEFFERS, Pastor Mexia. P. P. LEWIS, Mod. of Asso. J. S. TAYLOR, Missionary. Cunningham's Hat and Tailor Shop, Phone 602.

Mexia High Plays Itasca High Here Tomorrow

BLACK CATS HAVE ONE OF BIGGEST GAMES OF SEASON AT NOWLIN PARK TOMORROW

It is not customary for the biggest games on the schedule to be played near the opening of the season, but tomorrow is an exception with the Mexia high. Itasca looms as one of the strongest, if not the strongest contender for class B championship for this district. The High School Black Cats have a wonderful squad and so far have not had to use their full strength, as the walkover here last Friday did not tax the real strength of the Cats when they defeated Coolidge 79 to 0.

Coach Poteet has been working his men exceptionally hard for the past few days, correcting weak spots and any other faults that showed up in the opening game. He has spent much time in developing a punter, several changes have been made in the line-up. This is the last game that will be played in Mexia for several weeks, as the Cats play at Ennis next week, Marlin the week following that, the next game to be played at Nowlin park will probably not come before November 7th, when the Black Cats clash with Groesbeck. The date of Oct. 24th is still open. Tomorrow afternoon at 3:30 sharp two of the strongest contenders for this district meet at Nowlin Park, do not fail to witness this game. Ennis, Marlin and Mart will be especially interested in this game, as both teams will show up their true form.

DOPE DECLARES ITASCA TEAM IS TO BEAT MEXIA

By HECK.

With splendid football weather a hand Coach Poteet has been driving the Mexia High Black Cats at a terrific clip the past few days getting his charges in shape for the Itasca game here Friday. From the side lines it looks as though the Coach figures on using a forward passing game from the way he drives the Cats through the sprouts with aerial formations but he may be doing that just to correct the faults shown in the Coolidge combat last Friday when the Cats passing game did not look so good. The main squad going through the signal drills at present is composed of Auld and Hoezel at end; Thompson and Lucas at Tackles; Arrington and Corley at Guards; Bennett at center; Karner and Perkinson at Halfers; Buford at full and Clover at quarter. This squad will average close to the one hundred fifty pound mark and reel off their plays with precision and much elat. The dope gives Itasca the edge on the Cats and said dope also says they should win by three touchdowns but my hunch is that if the Cats will only come out of the kinks and not get overconfident over their easy win over Coolidge the Itascians are due for a real battle and are not such a cinch for a win as the dope carries. Anyhow, Marlin hopes that the Cats will get beat and be eliminated from the race, so does Mart. Ennis, Teague, Corsicana and others who are due to tangle with the Cats in the future. Several weak spots came to light during the Coolidge game and I notice that the Coach is working hard to correct them and if you don't believe it just meander out to the High School grounds and watch him drive the Cats to a frazzle until its too dark to see the ball.

The Westminster-Wesley game last Saturday was a splendid picture of the immovable meeting the irresistible and while the game lacked the dash and open play that is characteristic with the high school games the fans were treated to a great exhibition of head-on collisions which tore great holes in mother earth over all parts of the field. However, my dope is for the Black Cats and you pigskin fans are sure missing many a thrill if you don't see them in action and their game here Friday with the Itasca High is sure to be crammed full of spine tickling plays that will be well worth any mans money. Friday noon the Cats will be guests of the Mexia Lions and it is sure tough on the kids as they won't be allowed to eat the fancy grub that the Lions roar over but at the same time it will help them get their mind off the afternoon's game and the Lions will instill some of their well known pep into the squad and that will only make it tougher on Itasca when they lock horns at 3:30.

Anyhow you fans make your plans now to be out at Nowlin park Friday and bring a horn, whistle or anything that will make a noise and help the Cats spill the dope and trim Itasca.

WEAF To Broadcast Big Grid Contest

(By United Press)

NEW YORK, Oct. 2.—The most comprehensive football broadcasting schedule thus far in the history of radio has been arranged by Station WEAF, New York, for the coming football season. Plans have been completed for the broadcasting of nine of the most important eastern football contests and Graham McNamee, veteran WEAF announcer, who handled the two political conventions this year for that station, will describe all of the games.

Starting October 11 with the Columbia-Wesleyan game, WEAF will continue each Saturday, together with Thanksgiving Day, until the close of the season, finishing with the always spectacular Army-Navy game.

The schedule follows:

- October 11—Columbia vs. Wesleyan, at New York.
- October 18—Army vs. Notre Dame, at New York.
- October 25—Princeton vs. Notre Dame, at Princeton.
- November 1—Army vs. Yale, at New Haven.
- November 8—Harvard vs. Princeton, at Cambridge.
- November 15—Princeton vs. Yale, at Princeton.
- November 22—Harvard vs. Yale, at New Haven.
- November 27 (Thanksgiving day)—Cornell vs. U. of Pennsylvania.
- November 29—Army vs. Navy, at Baltimore.

Had To Take His Medicine On Time

(By United Press)

DALLAS, Oct. 2.—One Dallas cop is still baffled by what he saw a few days ago and dizzy from trying to decide what he ought to have done.

A man, apparently well-fed, halted on a street corner of his beat, took a bottle from his hip-pocket, a spoon from his vest, poured out a "dose" and swallowed pleasantly.

"Hey!" shouted the cop "what's the idea?"

"Just taking my medicine, officer," the "patient" replied calmly.

The "prescription" on the bottle read: "One tablespoon every four hours."

"Took my first at 6 a. m. at home and its time for another," the man said.

"Too much for me," the policeman, still dizzy, said as he walked away.

MAKE YOUR FACE AS LOVELY AS YOU ARE!

All most people see in anyone is what is on the outside. Naturally, those who are handicapped by pimples, blotches, "breaking out," eczema, etc., on their skin are not going to get any attention.

You can "make the frame as lovely as the picture really is" by simply getting rid of those skin disfigurements, if you will just use Black and White Ointment and Soap. Then your good nature and sweet ways will stand out without any drawback, and folks will want to be around you. They are economically priced, in liberal packages. The 50c size Ointment contains three times as much as the 25c size. All dealers have both the Ointment and Soap.—(Adv.)

WALTER JOHNSON

Great Pitcher to Whom the Game Has Brought Reward

(By United Press)

NEW YORK, Oct. 2.—For seven-year years Walter Johnson, the star pitcher for the Washington Senators, has been waiting patiently to get into the world's series.

The fates seemed to step in this year and grant him his ambition, just as he was about to retire from the major leagues and become a club owner in the Pacific Coast League.

Certainly no one allowed the Senators a chance to win the American League pennant when they started last April. There were four other clubs in the race that seemed better fixed to go through the hard pennant drive but there was no Johnson on the four other clubs.

Not only that great right arm, which threw them past the batters in the American League for fifteen years, made Johnson the big factor in the success of the Senators. It was his manliness, his genial disposition and his fine big heart that helped plant the winning spirit in the club.

Johnson has always been so popular all over the circuit and he has always been such a credit to baseball and to his team that he was the popular nominee for appointment to the position as manager of the club when Clarke Griffith was looking around for one last winter.

Sam Johnson, president of the American League, was only one of the few who thought that Johnson could be rewarded best for his long and loyal service in the league by appointment to the managership and that his career might be prolonged indefinitely if he made a success of the job.

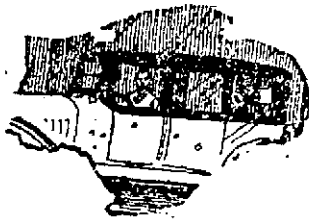

It was the cause of some surprise then when Griffith appointed Stanley Harris, one of the youngest men on the team, as the new manager. Harris was only ten years old when Johnson started to pitch for the Senators and it was thought that the veteran might consider it an affront that a baby should be placed in a position over him.

Johnson is not made of that stuff, however. He was in a position to help make or to break the kid manager. He was the leader of the squad, the one to whom all the others looked up for advice and inspiration. If Johnson did not tell them actually, he let them know that Buck Harris was all right and that he was for him, arm, heart and soul.

The grand old veteran went out and proceeded to pitch some of the best ball of his career. His support of his young manager was not

through such a long career. He has always taken good care of himself, however, and had such an easy motion that he never pulled out his arm.

As a reward for his service Johnson was given the greatest honor this year that can be bestowed on

RHEUMATISM Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenru, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenru has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiful and where the patient was helpless.

Mr. James H. Allen of Rochester, N. Y., the discoverer of Allenru, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenru decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. Anderson & Horn can supply you. (adv.)

Church Visitation Week Observed Here

The members of the congregation of the First Presbyterian Church are engaged this week in the observance of Church Visitation Week in an effort to promote fellowship in the Church as well as among all outside the Church, and in preparation for Rally Day which is to be observed by the Sunday School next Sunday.

The purpose of Rally Day is to gather into all the departments of the Church those who have been negligent or have fallen out of line and to enlist new members and workers.

A program will be presented by the Sunday School at 9:45 and the pastor will have a five minute Childrens sermon at 11 o'clock, followed by a sermon for grown folks on the subject "Make Jesus King."

Many new members have been enlisted in the Sunday School already. Eight new members were received by the Session at their meeting Wednesday evening.

A committee consisting of V. B. Gardner and G. E. Mitchell reported on plans for repairing the Church building.

The Rev. John R. Kidd, D. D. who created a fine impression and did good work in the congregation last April, has promised to return with a singer for the last two weeks of next March.

The pastor Mr. Hodson and G. E. Mitchell will attend the Synod of Texas which will convene in Abilene Oct. 23.

IN THE ESTATE OF HUGH L. ADAMSON, Deceased.

No. 595

In the County Court of Limestone County, Texas.

Notice is hereby given that I, Mary E. Adamson, Independent Executrix of the estate of Hugh L. Adamson, deceased, have this day filed my application in the above entitled and numbered cause for an order of the County Judge of Limestone County, Texas, authorizing me as Independent Executrix of the estate of Hugh L. Adamson, deceased, to make an oil and gas mineral lease upon such terms and conditions as the Court may order and direct, on the following described real estate belonging to the estate of the said Hugh L. Adamson, deceased:

An undivided one-eighth interest in and to the following described land out of the Sarah McNulty Survey in Limestone County, Texas, to-wit:

Being 20 acres out of that certain 255.5 acres of land set apart to Mrs. Henrietta Adamson in that certain decree of partition by the District Court of Limestone County, Texas, in Cause No. 987, said decree being of record in Book C, Minutes of said District Court, at Pages 200 to 204, to which decree and the record thereof, reference is hereby made; said 20 acres above referred to being out of the north end of the said 255.5 acres and more particularly described as follows:

BEGINNING at the northeast corner of said Henrietta Adamson 255.5 acre tract, same being in the west line of the J. P. Lindley 286 acre tract out of said Sarah McNulty Survey; THENCE west 224 varas to the northeast corner of Lot No. 9 consisting of 11 acres, set apart to Mrs. Beckham by the decree of partition above referred to, said point being the most northerly northwest corner of said 255.5 acre tract; THENCE south 504.1 varas along the east line of said Lot No. 9 set apart to Mrs. Beckham, for southwest corner of this tract; THENCE east 224 varas to a point in the east line of said Adamson 255.5 acre tract for the southeast corner of this tract; THENCE north with the east line of said 255.5 acre tract 504.1 varas to the place of BEGINNING, and containing 20 acres of land.

That said application will be heard by the County Judge of Limestone County, Texas, at the courthouse in the city of Groesbeck, Limestone County, Texas, on the 14 day of October, 1924.

MARY E. ADAMSON,
Independent Executrix of the Estate of Hugh L. Adamson, Deceased.

MYSTERY MAN AT STATE FAIR

Harry Houdini, most famous "mystery man" in the world, is to be a special attraction at the State Fair of Texas, Dallas, one day only, on the afternoon of Sunday, Oct. 12. Houdini is to present his latest demonstration of the work of "spiritualistic" mediums, in connection with his lecture on the subject, "Can the Dead Speak to the Living." He declares they can't, and his expose of "fake" mediums is declared to be the most absorbing entertainment ever conceived. It is all the more interesting because it is given in broad daylight, and with none of the curtains and other appliances used at so-called "seances."

JAPANESE LANDLORDS AND TENANTS ROW OVER POST-EARTHQUAKE RENTS

By HUGH J. SHUCK,
International News Service Staff
Correspondent.

TOKYO, Oct. 2.—Thousands of tenants here held a demonstration meeting at Ueno Park recently to voice their grievance against the greedy landlords who took advantage of the earthquake and fire of last September to squeeze high rentals from them.

Not all of the landlords have aroused the indignation of their tenants, however. Many of them acted very generously, often relinquishing their claims for rent for six months or a year and assisting the unfortunate to get back on their feet again.

In a good many cases the tenant's were the greedy ones. A number of stories were related at the Ueno meeting of litigation between landowners and renters, some of which were settled in the courts.

One instance was that of a tenant who constructed a shack on the site of the house he had lost by fire, without the consent of the owner. For some months the landlord made no attempt to collect rent, thinking that the ill luck of the renter justified such a step. At length he demanded rent, but it was refused, first on one pretext and then another.

Things dragged for some time, and at last the landlord consulted his attorney. In his haste to build the shack, the tenant had left a foot of vacant land in front of the building. Acting on the advice of his attorney the landlord built a high board fence in front of the shack leaving an entrance at one end in order to avoid the charge of tampering with the personal liberty of the tenant.

The occupant of the house could go in and out if he chose, and customers could enter the shop he maintained in the shack if they wished—provided they knew how to find their way around the fence. But in a day or two the business of the shop dropped down to almost nothing, and the tenant did not dare tear down the fence. The case was at last brought before the court and decided in favor of the landlord.

In a similar case a landlord built a wall right against three sides of a department store when the tenant refused to pay his rent, and in a short time the business had fallen off to such an extent that the tenant capitulated.

Another landlord who tried in vain to collect his rent hired a beggar, clothed in rags, to dun his tenant for the amount overdue. One morning the tenant found the beggar knocking at his door and tried to chase him away. The beggar, however, was armed with the power of attorney and refused to go. Filthy and unkempt, he took up his station in front of the house. At length, in shame, the tenant—who was also an attorney and realized the weakness of his position—paid his overdue rent and rid the premises of his uncouth visitor.
